Pulizia

Oiled wood

The new product may show traces of excess oil, which can be removed with a soft cloth. For cleaning, we recommend using a cloth dampened with water. Do not use solvents, detergents, or abrasives. Do not immerse in water; dry immediately after cleaning. Oiled surfaces can be re-oiled using a soft cloth and odourless vegetable oil.
Cleaning & Maintenance

Wipe the surface with a damp cloth or sponge. You may use a mild soap or detergent. Wipe completely dry with a soft rag using a straight line motion.
Care Instruction:

We recommend washing the parts of the product that come into contact with food before first use.

For ongoing care, clean the product after each use as follows:

• Wooden parts should never be immersed in water. Clean them with a damp cloth using clean lukewarm water and neutral

soap, then dry immediately.

• Metal parts can be hand-washed with clean lukewarm water and neutral soap, followed by thorough drying.

• Plastic parts can also be hand-washed with clean lukewarm water and mild soap, then dried.

• Avoid using abrasive sponges, harsh detergents, pressure washers, or dishwashers!

• After washing, store the product in a clean indoor environment, away from moisture and direct sunlight.

Attenzione
